WILL ADDY'S MURDERER BE HANGED OR SHOT?

Two sets of authorities, civil and military, pursue the mur-derer of Private Ira D. Addy, and the one that catches him will try and sentence him. In speaking of the right of jurisdiction in the Addy murfor today, a captain in Camp Forrest mentioned a nice point of jurisdiction. "If Addy's slayer be a soldier," said the captain, "the court-martial will control and the prisoner will be either shot or sent to Leavenworth, Kan. If he be a ci-vilian, the force that catches him will have jurisdiction."

If the state catches Addy's

murderer, the military authorities will make an effort to bring him into their jurisdic-tion, but this will be optional with the civil authorities.

NOW IS THE TIME TO BE CARE-

RAIN PROBABLE NEWS of WORLD MARKETS

HERE TONIGHT HEAVY TONE ON CORN VALUES IN TRADE SLACK ON STOCK MARKET HARDENING TURN

New York, Feb. 14.—Special issues, such as Distillers' Securities, General Motors and Sumatra Tobacco, averaged I-point gains at the dull opening of loday's stock market, but immediately reacted on the heavy tone displayed by other shares of the same class, notably Maxwell Motors, Texas Company and General Electric. Steels and coppers were fractionally lower, and Canadian Pacific was heaviest of the rails at a loss of 1½ points. Liberty bonds were lower.

Rails and shippings led the substantial improvement shown during the midsession. Uniton Pacific gained 4 points on restoration of the 10 per cent. dividend rate, and Atlantic Guif rose 3 points. United States Steel and other active industrials strengthened materially.

Leaders forfeited part of their gains in the danguid final hour. The closing was

Leaders forfeited part of their gains in the danguid final hour. The closing was firm. Liberty first 4s made a further BOARD OF TRADE.

DISTRICT FAIR TO

Plan for Larger and Better Exhibits This Fall-Enlargement of Directory.

A four-page magazine entitled "Chattanooga Fair News' will be is-"Chattanooga Fair News" will be issued monthly now by the officials of the Chattanooga district fair. The first issue will be mailed out Feb. 15. A mailing list has been compiled, which includes the names of the Chattanooga business men and merchants. The object of issuing this periodical is to try and promote interest in the coming 1918 fair, which will be held at Warner park Sept. 30-Oct. 5. The "Chattanooga Fair News" will contain articles on the fair concerning the various deon the fair concerning the various de-partments, such as agricultural, horticultural, racing, and arrangements which are being made for different at-

J. Read Voigt, counselor for the fair association, is going over the charter for the purpose of determining whether it will be possible for the membership of the board of directors to larged. If Mr. Voigt finds that this can be done, there will probably be five new members added to the board. As it now stands there are ten mem-

There has been a great deal of discussion among the officials of the va-rious fairs throughout the country as to whether Secretary McAdoo would permit the movement of cattle, exhibits and amusements from one fair to another. A letter has been received by the secretary of the fair from A. L. Sponsler, president of the American Association of Fairs and Expositions,

the women's building this year and will operate this department entirely different from the previous years. There will be no prizes offered for dainty embroidered articles, nor for a tempting cake made out of wheat flour, eggs, sugar, butter and many other things. On the other hand, prizes will go to those who have the best war bread, cakes made without eggs or wheat flour, etc. Demonstrations will be held in the women's building daily both by the Red Cross and other organizations of the city.

ISLAND'S MAYOR HELD AS HOSTAGE BY GERMANS

Paris. Feb. 14.—The German subma-rine which sank the Spanish steamer Ceferin near Ferro Island, one of the Canary group, belonging to Spain, as reported from Madrid yesterday, landed reported from Madrid yesterday, landed a party on Ferro island when it put ashore the crew of the steamer, according to advices to the Figaro.

The Germans are said to have sent for the mayor of the town, to whom they declared there were two Germans interned on the island. The mayor explained that all the Germans were on Teneriffe island, but he and another prominent citizen were nevertheless. prominent citizen were nevertheless taken on board the submarine and held as hostages until a message from Ten-

criffe confirmed the mayor's state-ment, the Figaro advices state. There is no confirmation of this in-

cident from other sources.

FRENCH OPTIMISTIC OVER WHEAT PROSPECT

Paris, Feb. 14.-The condition of winter wheat in the departments of France, which give the largest yields, is reported by an expert, who has just finished a tour of inspection to justify fully the most optimistic hopes for the 1918 crop. Prospects are good for a greater crop per acre than in any years since 1914.

Preparations for spring seeding are under way and it is probable the under way and it is probable the acreage will exceed that of last spring by nearly one million. There is an equal increase in the acreage of winter wheat over 1917.

NO CHANGE TO BE MADE IN IMPERIAL STAFF

Association of Fairs and Expositions, of which the local association is a member, which reads that Secretary McAdoo will not interfere with the transpertation of the various amusciments and exhibits connected with the fairs unless it will cause the delay of the sub-chief will continue to be the principal British representative at the fair as has London, Feb. 14.—Maj. Gen. Wm. R. Robertson, the Daily Chronicle declares, on its own information, will remain chief of the imperial staff with

The Chronicle adds that if, as has been reported, an exchange of offices between Gens. Robertson and Wilson was contemplated at any time, it has now been abandoned.

BERLIN GLAD OF RETURN TO MONROE DOCTRINE

The Hague, Feb. 14.—Discussing President Wilson's latest message, the semiofficial Norddeutsche Allgemeine Zeitung, according to a telegram from Berlin, says:
"We take note of President Wil-

son's assertion that he does not wish to interfere in a European dispute. but this assertion is not entirely reconcilable with his other state-ments regarding the participation of all parties in a discussion of disputed points. It is desirable that Mr. Wilson return to the old Monroe doctrine, which formerly was sacred to America. Thus far his proposals amount simply to an intention to compel the world to sign an Angle-Saxon peace.
"After the experiences of this war, especially with the Angle-Saxon powers, nobody will be inclined to sign such a peace, which would not be instthe a peace, which would not be last,
the two would represent the tyranny
England and the United States,
rmany and her allies are still dissed toward peace, but will also on unanimously until peace, cor-

COTTON MARKET

New York, Feb. 14.—The cotton market showed continued nervousness and irregularity early today, with a comparatively small volume of business. The opening was steady at an advance of 2 to 5 points, with May selling at 23.5c. or 3 points above last night's closing figures, after the call. There was scattering liquidation, however, particularly in the case of March deliveries, and the market sagged off shortly after the call on talk of better prospects for light rains in Texas, with May reacting to 29.40c, or 7 points net lower.

The official forecast for fair and colder weather in the southwest was a disap-

The official forecast for fair and colder weather in the southwest was a disappointment to some of the early sellers, and the market stiffened up later in the morning on the bullish average of spot advices, the bullish view of supply and distribution figures and covering. May advanced to 29.60c, or 13 points net higher, but met scattering liquidation at this level, with later fluctuations narrow and irregular.

A renewal of peace talk helped to steady the early-afternoon market, al-though Boston advices said the heatless Mondays were to be continued in the New England states. The market re-mained irregular.

NEW ORLEANS COTTON

NEW ORLEANS COTTON

New Orleans, Feb. 14.—In the face of bearish figures on consumption for January from American mills, the cotton market here rose 3 to 10 points in the first half-hour today. Dry weather in Texas stimulated the demand.

After a sag which carried the easiest months 3 points under yesterday's close, the market felt buying based on small mill stocks in the north and the forecast of continued dry weather for Texas. In the trading up to noon prices went to a net gain of 12 to 18 points.

It was a quiet but steady market in the afternoon, without much price change. At 1 o'clock the trading months were 4 to 3 points over yesterday's close.

FOOD DEMONSTRATION

Development of Indian Lands in Oklahoma Shown to Chattanoogans.

For the purpose of assisting the government in raising more food and live stock, a Pullman car, equipped with farm products, photographs and other matter of interest relative to undeveloped indian land in southeastern Oklahoma, arrived in the city Wednesday and is parked near the Southern freight depot at the Western & Atlantic crossing. The car was thrown open to the public to-day, no admission being charged. A visit to the car will prove interesting, espe-cially to persons who have a desire to engage in stock raising and farming.

The organization responsible for the novement is a corporation composed of

public-spirited citizens of the southwest who have spent more than \$100,000,000 in establishing the necessary equipment to carry on a vast and much-needed work in connection with the undeveloped lands throughout the southwest. The lands belong to the Indians, either individually or as a nation, and, under the control or supervision of the interior department of the federal government, are being sold every few months at a price remarkably The company, it is understood, has established every facility for the encour-agement of stock raising and farming, even going so far as to furnish the necessary equipment.

The car containing the exhibits products has created considerable interest, and during its stay in Chattanooga will no doubt be visited by hundreds of people throughout this section. Compe-tent men are in charge, who explain the exhibits and the nature of the work they are performing.

M. KURN ELECTED TO RAILROAD OFFICE

New York, Feb. 14.—J. M. Kurn has been elected vice-president of the St. Louis & San Francisco Railway company in charge of operations and construction, it was announced here

BOYS LEARNING TO SHOOT AT Shout Commands in Unison—Sounds Much Like Call for Dinner in Lions' Cage.

The First battalion, reserve officers' training camp, was practicing giving and executing commands under direction of Maj. Koehler Wednesday morning. The embryonic officers put snap into their drill. At a distance, the commands, shouted in unison by the whole battalion, had much the harshness and grating quality of the lions in the zoo roaring for meat at

REPINGTON SUMMONSES RETURNABLE SATURDAY

London, Feb. 14.—It is understood that the summonses for Col. Repington, the military correspondent of the Morning Post, and P. A. Gwynne, editor of the Post, who are to be prosecuted under the defense of the reaim act for an article by Col. Repington, which appeared in the Post on Monday, are returnable in the Bow street police court on Saturday morning. police court on Saturday morning.

division: Seventeenth infantry; Third division trains: Sixteenth machine gun bat-tallon; Nineteenth nachine gun battalion; Eleventa brigade, Sixth division.
In all 14,000 men will be in

the parade. Companies have been drilling all this week in preparation for this review.

WILL GUARD HEALTH OF CHILDREN IN SCHOOLS BY MEDICAL INSPECTION

Defective EEyes to Be Remedied - Teeth Must Be Kept Clean. Communicable Diseases to Be Closely Watched.

A meeting of the city school Treadway, "to see to it that such that such things are corrected when the child is Wednesday afternoon at the chamber of commerce. The meeting was called upon the request of Commissioner H. D. Huffaker in order that the United States officials might present to the educators the plan of an organized

health inspection in the schools, Supt. C. H. Winder presided and called upon Dr. C. P. Knight, officer in charge of the work in this zone, to address those present. After a brief talk Dr. Knight introduced Dr. Walter Treadway. He said that Chattanooga is very fortunate in securing Dr. Treadway for the organization of the school work as he is considered the best authority in the department on

Dr. Treadway outlined the plan of organization in which he said there would be a full time health officer for the schools, four Red Cross nurses and one colored nurse. He stated that Mr. Huffaker, the commissioner of health, is planning to employ a health officer for the schools, and the Red Cross nurses will be furnished from the de-

partment for the present.

Examine Each Child.

Each child will be examined. This will consist of the examination of the eyes, ears, nose, teeth and weighing and measuring of every pupil. Those children having physical defects, said Dr. Treadway, the workers will endeavor to have corrected, and by correcting such defects, as defective eyesight, it will lessen the retardation of

young. This will mean better men and

To Check Disease,

Another feature of the establish-ment of the health work in the schools is the great opportunity to control communicable and contagious dis-eases. To do this Dr. Treadway told the teachers they must be willing to help and to co-operate in every way possible. For example, he explained, if a child is absent from school more than three days, his or her name should be reported by the teacher to the nurse, and the case will be inves-tigated. There is a tendency among the parents to suppress it when their child has a contagious disease, and many permit the other children to go to school. With an adequate system of inspection this can be prevented.

The care of the teeth was taken up by the doctor and discussed. He told how important it was for children to clean their teeth. At present, he pointed out, there are just about 80 pointed out, there are just about 80 per cent, of the children, between the ages of 5 and 8 years, who never clean their teeth. The care of the primary teeth is just as important the primary teeth is just as important. mary teeth is just as important as the second teeth, as the first teeth, if not properly cared for, will interfere with the second teeth. The best way to educate the child up to this is by lec-

tures and drills. . Dr. Treadway will remain in the city for several weeks. While here he will give talks in the schools, and make a thorough inspection and help "It is the patriotic duty of those in organize the work for an adequate charge of the schools," said Dr. system of inspection.

FORFEITURES TO BE TAKEN ON BOND CASES

Lawyers' Privilege of Signing for Clients Will Be Limited Under New Ruling.

Lawyers who owe forfeitures in the criminal court will not be allowed to sign bonds until they have paid every nickel they owe the court. This order was issued Thursday morning by Judge McReynolds and at the suggestion of Assistant Attorney-General T. Pope Shepherd, who said that it was not proper and fair, the way some lawyers run at random and bonds promiscuously. He stated that a number of lawyers were on bonds and had been on them for some time and that the bonds were not worth the paper they were written on.

"Make every lawyer who signs a bond," said the court, "qualify first before he is allowed to do so." A number of cases were called Thursday morning and neither lawyer, client nor witness showed up, and as the result forfeitures and capiases

The cases of Will Hayes and Sam Wilhoite, charged with vagrancy, was call and neither lawyer, bondsmen, pruary-March, 21.79d; Marchod; May-June, 21.54d; JuneDescription of Marchod; May-June, 21.54d; JuneDesc clerk was given instructions that if the men made bond upon rearrest to place the bond at \$2,000 in each case and make the bondsmen qualify. Orders were also given not to take the same lawyer on Wilhoite and Hayes The court expressed himself as believing that some lawyers were taking advantage of his leniency and that he was going to be more strict in

FEED INDUSTRIES MUST HAVE FEDERAL LICENSE

After Friday All Wholesale Dealers Will Be Under License Control.

Dr. H. A. Morgan, state federal food administrator, has, sent to all county chairmen a letter cailing their attention to the fact that on and after Feb. 15 no manufacturer or wholesaler (regardless of volume of business) or dealer (except retailers whose gross sales do not exceed \$100,000 a year) will be permitted to trade in concentrated and mixed feeding stuffs without a license from the United States food administration.

This is in accordance with the president's proclamation of Jan. 10. In his letter of instructions, Dr. Morgan stresses the point that the hoarding of commercial stock feeds and of hay by the very small percentage of unfair manufacturers and dealers will be

manufacturers and dealers will be stopped by placing the entire industry under license control.

"The proportion of manufacturers and dealers who have applied for license since the president's proclamation does not measure up to expectation," says Dr. Morgan, and he urges that those who have failed to obtain feeding stuffs li-censes immediately apply to the United States food administration, license division, Washington, D. C., specifying the

nature of the business to be licensed Failure to secure license by Feb, 15 may be punished by a fine not to exceed \$5,000 and by imprisonment for than one year, or both fine and impris

onment. Every manufacturer, importer, dealer principal ingredients used extensively in making commercial mixed feeds is in-cluded in the license requirements. This covers baled hay, shell and car corn and many other important commodities which are intended for use as feed or ingredients in mixed feeds.
